Manufacturing Solutions Provider

**For Immediate Release: March 28, 2013**

## **Machining, Sheet Metal and Integration Manufacturer, KARLEE, Announces the Launch of New Enterprise Resource Planning Software**

Garland, TX - KARLEE announces the launch of Epicor 9, a next generation full ERP platform that will allow KARLEE to maximize productivity across every facet of the organization in an effort to increase value to Stakeholders. KARLEE believes Epicor 9 gives it a key competitive advantage through better data management and increased mobile access which provides improved responsiveness and real time decision making. The official launch date for Epicor 9 is April 1, 2013.

As with any transition of this nature, KARLEE has put this new platform through months of planning and testing. As a result, KARLEE is confident that the due diligence taken up front will result in a transparent transition. More importantly, the net effects will result in KARLEE becoming a more agile and valuable business partner.

### **About KARLEE**

KARLEE is an award winning, certified woman owned provider of customized integrated manufacturing services such as sheet metal fabrication, precision 5-axis machining, cabling, electromechanical assembly and process coating. The company is diversified across several industry sectors including medical, semiconductor, telecommunications, aerospace, defense, and commercial. To support business solutions, KARLEE offers a full range of services from e-business to total supply chain management, prototyping, and concurrent engineering. KARLEE has over 35 years of experience providing new product development engineering services for enclosures, component parts, box build and cabinets. The company's strategic business model has been built around flexibility, continuous cycle time reduction, and cost savings to customers. Further capabilities include low to medium volume, high complexity, custom products through high volume commodities; assistance with vital aspects of product development and support through the entire life cycle to achieve total manufacturing solutions. More information is available at <http://www.karlee.com>.
